

“Just wanted to thank you for using my bowfin pic in the last issue of PA OUTDOOR JOURNAL. I’ve always appreciated your magazine’s interest in the more unusual fish that inhabit our waterways.

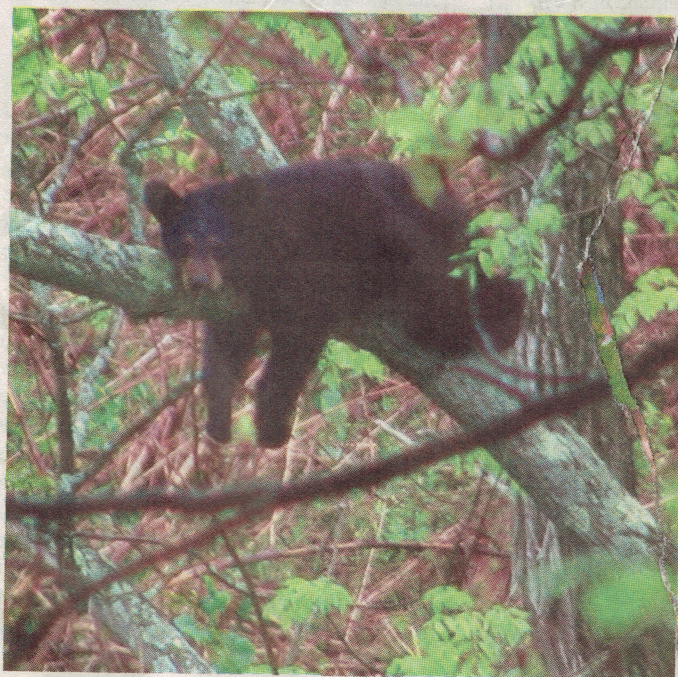

Here’s a 48” longnose gar I caught and released while wading

in Presque Isle Bay last month. This pic took 3rd prize in the Rocket 101 “Pick Ur Perfect Mount” photo contest. I often target gar with my homemade gar-getter hookless rope lures, but this Garzilla smacked a Rapala and stuck. Thank God for Owner hooks!”

— Dan Morey

“Thought you might like some of my pics. I was going fly fishing to Kettle Creek and just happened to see a bear in a tree. He was sound asleep. It took a lot to finally get him to look. It was like, ‘Lady, leave me alone.’” — God Bless, Cyndee Gulvas
